

Spider Monitoring Equipment

Aerial sweep net/beat net, great for low vegetation and grass, won't get stuck or tear. \$25 at Acorn naturalists or amazon. Home made options possible.

Beat Sheet, held below branches/brush while using a beat stick to shake insects and spiders loose. Works great, easily home made.

Litter sifting box. Two plastic totes of same size, cut bottom of one out and install screening material, throw in leaf litter and shake into box below.

Aspirator for sucking bugs into jar. \$7.50 at bio quip.

Snap cap vials \$2-5 at Acorn.

Clear lucite magnifying cube \$1-4 at Acorn.
